Solartron (DIN RAIL) Signal Conditioning IN STOCK NOW AT CDI!

Range selectable to ± 10 VDC
Range selectable to ± 20 mA (example: 0-20 mA, 4-20 mA)
DC powered (10 to 30 VDC)
LVDT and Half Bridge variants
No Supply Chain Issues.
No Component Shortages.

About TE Connectivity

For more than 30 years **TE Connectivity's (TE) Measurement Specialties** sensors have been designed to address most demanding engineering challenges across a wide range of industries and applications. TE's Measurement Specialties sensor solutions measure pressure/force, position, vibration, temperature, humidity, and fluid properties and are at the heart of many everyday products and provide a vital link to the physical world.

About Solartron Metrology

World Leaders in Linear Measurement. Digital Gage Probes, LVDT™s, Optical Linear Encoders, and associated instrumentation

About Component Distributors, Inc. (CDI)

Component Distributors, Inc. (CDI) is a value-added distributor of high-performance LED, Power, RF & Microwave, Wireless and Sensor component technologies. CDI distributes globally and provides local application support and custom service across the Americas. CDI delivers cutting edge power electronics by wrapping application support, development tools and design services around high-performance products from industry leading manufacturers.
