Surfetest SJ-210 IN 4MN (Standard Drive Unit)

Check Out These Features On The Industry's Finest Portable Surface Tester:

- The 2.4-inch color graphic LCD provides excellent readability and an intuitive display that is easy to negotiate. The LCD also includes a backlight for improved visibility in dark environments.
- The Surftest SJ-210 can be operated easily using the buttons on the front of the unit and under the sliding cover.
- Up to 10 measurement conditions and one measured profile can be stored in the internal memory.
- An optional memory card can be used as an extended memory to store large quantities of measured profiles and conditions.
- Access to each feature can be password-protected, which prevents unintended operations and allows you to protect your settings.
- The display interface supports 16 languages, which can be freely switched.
An alarm warns you when the cumulative measurement distance exceeds a preset limit.
- The Surftest SJ-210 complies with the following standards: JIS (JIS-B0601-2001, JIS-B0601-1994, JIS B0601-1990), VDA, ISO- 1997, and ANSI.
- In addition to calculation results, the Surftest SJ-210 can display sectional calculation results and assessed profile load curves, and amplitude distribution curves.

About Mitutoyo

CDI is an authorized distributor for **Mitutoyo**. Mitutoyo offers laser scan micrometers, surface roughness testers, digital indicators, and other various measurement tools including digital and dial indicators. These products are used for precise measuring and are widely used in the aerospace, automotive and medical markets. Mitutoyo has been producing micrometers since 1937 and is a world leader in metrology.

About Component Distributors, Inc. (CDI)

Component Distributors, Inc. (CDI) is a value-added distributor of high-performance LED, Power, RF & Microwave, Wireless and Sensor component technologies. CDI distributes globally and provides local application support and custom service across the Americas. CDI delivers cutting edge power electronics by wrapping application support, development tools and design services around high-performance products from industry leading manufacturers.
