Pivoting display

The 10-inch touch panel with turn/tilt joint enables it to be set individually based on the work position, height of the operator, and lighting conditions.

Advantages

- Intuitive and easy to operate via touch display without the need of extensive training
- Pivotable and tiltable display provides a relaxed working environment
- Air bearing system and handles on both sides ensure easy and smooth movement
- Function keys and a dynamic thumbwheel make it faster and easier to operate
- Powerful battery for independent operation for up to two shifts

Perfect Precision

- Outstanding measurement accuracy and the highest level of precision
- Extremely easy to transfer data
- Suitable for workshops and laboratories
- Best ergonomics

About Component Distributors, Inc. (CDI)

Component Distributors, Inc. (CDI) is a value-added distributor of Precision Gaging and Metrology Solutions, and Position Feedback Sensors. CDI distributes globally and provides local application support and customer service across the Americas.

About Mahr

Technical innovation and quality-oriented thinking are the core competencies of successful businesses. Both competencies are not possible without metrology. Measurement instruments verify research and development results and document product quality. Without continuous advancement of metrology there would be no technical progress. **Mahr** offers a wide range of measuring instruments to solve your specific measuring task. Convince yourself!
