## Introducing the Solartron SI8500 Metrology Display

Part Numbers: [911508-US](#) and [911515-US](#)

Introducing the **Solartron SI8500 Metrology Display**, the perfect replacement for the SI7500 Gage Check. This powerful unit comes with a 10-inch touchscreen, 64 sensor inputs, and the ability to power up to 10 Solartron modules.

With two versions available, one panel mounted and the other equipped with a stand, you can choose the perfect option for your shop. The **SI8500** is designed to make your life easier, with Orbit GCS software allowing you to easily set up tolerances for each channel, build custom formulas, and master settings.

It also includes powerful statistical process control functions, so you can easily store multiple parts, and output data to .csv for easy import to Excel or other programs. Make your life easier and more efficient with the Solartron SI8500 Metrology Display.

### Key Features:

- Heavy duty aluminum casing with 10" Touch screen
- Built for an industrial environment
- IP 64 for front panel with four programmable keys
- Connect with up to 64 Orbit Sensors
- Powers up to 10 Modules, including contact and non-contact sensors
- Easy & intuitive setup with touch screen
- Build your own custom formulas
- SPC and Mastering functions included
- I/O connections for automation
- USB Port for easy data output
- Footswitch plug
- Link to 3rd party sensors via Orbit connection modules, including air gauging
- Benchtop (with stand) or Panel Mount option (VESA Mounting Standard)

### **About Component Distributors, Inc. (CDI)**

**Component Distributors, Inc. (CDI)** is a value-added distributor of Precision Gaging and Metrology Solutions, and Position Feedback Sensors. CDI distributes globally and provides local application support and customer service across the Americas.

### **About Solartron Metrology**

World Leaders in Linear Measurement. Digital Gage Probes, LVDT's, Optical Linear Encoders, and associated instrumentation.
