

CDI Precision Measurement and TE Connectivity
Tilt Sensors and Inclinometers for New OEM Designs!
Featuring...

TE Connectivity Dog 1 and Dog 2 Series
OEM Tilt Sensors and Inclinometers.

Tilt Sensors and Inclinometers for New OEM Designs at CDI

Description

CDI Precision Measurement and TE Connectivity
Tilt Sensors and Inclinometers for New OEM Designs!
Featuring

TE Connectivity Dog 1 and Dog 2 Series
OEM Tilt Sensors and Inclinometers.

MEMS TILT SENSORS & INCLINOMETERS

Our MEMS tilt sensors and inclinometers offer accurate measurement of inclination, angle and tilt in various applications.

TE Connectivity offers capacitive, conductive electrolytic and MEMS tilt sensing technologies in rugged die-cast aluminum, ceramic or plastic packages. These products feature many analog and digital input/output options, with linearized and temperature compensated outputs. Standard and customized packaging is available as well as raw sensors for high volume OEM applications.

APPLICATIONS

Automatic Tip-over Protection
Prevent Accidents

Autonomous Control/Comfort Features
Make Operator's Life Easier

About Component Distributors, Inc. (CDI)

CDI Precision Measurement Solutions Group is a Value-added distributor of Precision Gaging and Metrology Solutions, and Position Feedback Sensors. CDI distributes globally and provides local application support and customer service across the Americas.

About TE Connectivity Sensors

TE Connectivity (TE) is a global technology leader, providing sensors and connectivity essential in today's increasingly connected world. TE is one of the largest sensor companies in the world. Our sensors are vital to the next generation of data-c technology. We offer different types of sensors for applications across a wide range of industries, including Automotive, Industrial, Medical, Appliance, Aerospace & Defense, and Industrial and Commercial Transportation.
