Description

CDI Precision Measurement & NK Technologies
Introduce Ground Fault Protection

Ground faults can be costly if not checked. They can cause a fire to erupt, damage equipment, or cause injury to personnel. Numerous safety regulations and electrical codes exist to prevent and protect against ground faults. The and so much more can be found in our technical guide on ground fault protection.

COMPATIBLE WITH STANDARD EQUIPMENT

- Applicable on single- and three-phase systems
- Ideal for use with shunt trip breakers
- Magnetically isolated from monitored circuit and control power
- Uses “zero sum” operating principle to reliably sense imbalance in magnetic fields associated with current leakage to ground

[About Component Distributors, Inc.](#)

CDI Precision Measurement Solutions Group is a value-added distributor of Precision Gaging and Metrology Solutions and Position Feedback Sensors. CDI distributes globally and provides local application support and customer service across the Americas.

[About NK Technologies](#)

NK Technologies has remained the premier manufacturer of Ground Fault Monitoring Solutions, serving the factory and industrial automation markets.
