Palm City, May 1st, 2024 – Electro-Photonics LLC, a leading provider of passive RF & Microwave components and solutions, is pleased to announce the appointment of Component Distributors, Inc. as its authorized distributor for the Americas region. This strategic partnership aims to enhance accessibility to Electro-Photonics'™ innovative products and bolster support for customers across North and South America.

Component Distributors, Inc., renowned for its commitment to quality and extensive distribution network, will offer Electro-Photonics'™ comprehensive range of RF & Microwave components, including but not limited to SMT hybrid and directional couplers, resistors, power dividers, test fixtures, isolators, and circulators. By leveraging Component Distributors'™ robust infrastructure and market expertise, Electro-Photonics seeks to streamline the procurement process for its valued customers, facilitating easier access to standard and custom passive RF components.

"We are thrilled to welcome Component Distributors, Inc. to our sales network," said Alen Fejzuli, President of Electro-Photonics LLC. "Their unparalleled dedication to customer satisfaction and extensive reach in the Americas make them an ideal partner for expanding our market presence. This collaboration underscores our commitment to delivering top-notch RF & Microwave solutions and unparalleled support to customers across the region."

Component Distributors Inc. shares Electro-Photonics'™ vision of delivering exceptional value and superior service to customers. With a comprehensive understanding of local markets and industry trends, Component Distributors Inc. is poised to provide personalized support and ensure timely delivery of Electro-Photonics' products to customers throughout the Americas.

"We are excited to join forces with Electro-Photonics as their authorized distributor for the Americas," said [Name], President at Component Distributors, Inc. "Electro-Photonics'™ reputation for innovation and quality aligns seamlessly with our commitment to offering best-in-class RF components to our customers. Together, we look forward to driving growth and success for our mutual clientele."

Electro-Photonics and Component Distributors, Inc. are dedicated to fostering mutually beneficial partnerships and delivering unparalleled value to customers. This collaboration represents a significant milestone in Electro-Photonics'™ expansion strategy, enabling the company to better serve the dynamic needs of customers across the Americas.
